energy GLOBAL EXPO

The new climate, energy and resources landscape and the current geopolitical environment have made energy and energy companies key strategic elements of any economy.

EGEC'23 was conceived as a meeting point for both the Spanish and the international energy sectors, the aim being to further understand the current challenges surrounding energy and the climate, the two major aspects of the current Energy Transition process, and promote and enable the adoption of technologies, solutions and tools that can help palliate the energy crisis and accelerate the transition to a green future.

MISSION

EGEC'23 was created to give the entire energy sector in the Comunidad Valenciana and nationwide a boost, by helping improve its ability to compete in a global market on the back of a regional structure.

EGEC'23 will be a forum for companies with interests in the energy sector, where they will be able to show their business potential and display their capacity to innovate and differentiate themselves from the competition.

EGEC'23 is launching in the Comunidad Valenciana but aspires to go national and international. The show will also reveal the degree of cooperation, innovation and proactivity that exists amongst participants, geared to the pursuit of excellence in what is a strategic sector.

TOPICS

- Energy Storage
- Self-consumption
- Biomass
- Energy Communities
- Digitalization of Energy
- Energy Efficiency
- Marine Power
- Wind Power
- Renewable gasses (H2, Biogas...)

Agents with leading roles in energy policy and planning, engineering, execution and maintenance geared to achieving Energy Transition.

EGEC'23 FOR EXHIBITORS

EGEC'23 is a unique exhibition event for meeting the leading players in Energy Transition, where your equipment, products, innovations, solutions, technologies etc. will be on display in one communal space.

EGEC'23 is positioning itself as a showcase for the latest trends in the industry, comprising a hugely powerful mechanism for exhibitors to enhance their visibility and do business, with direct contact between companies and customers.

EGEC'23 is an effective platform for creating commercial contacts, a valuable sales accelerator, an advanced showcase for your latest innovations, a promotional tool that will give your corporate image unparalleled visibility and an event where you can build customer loyalty.

EGEC'23 CONGRESS

EGEC'23 includes a unique congress where the leading players in Energy Transition can meet, and where the latest trends, projects, research, advances and developments in the industry can be seen.

EGEC'23 is a unique event where exhibitors and visitors can explore the possibilities for joint ventures, synergies and areas of common interest that can help with the design and development of new projects and solutions.

EGEC'23 aims to be an event where academic institutions, companies and research organisations can enhance their reputations.

EGEC'23 will facilitate building a bigger network of contacts and strengthening professional relationships.

EGEC'23 FÓRUM

EGEC'23 is far more than an exhibition and congress event. It offers a multitude of parallel activities and events for professionals that make it a unique occasion.

EGEC'23 also offers:

- ▶ **Exclusive B2B networking.** 15-minute meetings can be arranged between exhibitors and congress delegates, held in parallel with the main event.
- ▶ **Opportunities to meet international buyers.** Meetings can be set up for you with potential buyers from major European companies.
- ▶ **Energy night.** The worlds of energy, business, economics and finance, society and politics come together at an event that doubles up as the award ceremony for the EGE Awards, that recognise outstanding professionals in the world of energy.
- ▶ **Energy Global Awards.**
- ▶ **Hospitality Programme,** providing a support service.
- ▶ **Opportunities** for participants to **visit facilities** of interest.

WHY VISIT EGEC'23?

EGEC'23 is a unique event where you can:

- See the latest products, innovations, advances and trends in the industry at first hand.
- Gain an overview of the sector and the market, including the various specialist areas of the industry.
- Establish new business relationships with prospective customers, suppliers and partners.
- Take steps towards acquiring new customers and entering new markets.
- Acquire knowledge from the workshops, exhibits, round tables etc.
- Save time, shorten the sales process and/or fine-tune your business strategy.
- Expand your network of contacts and re-engage with past partners and collaborators.

IN TANDEM WITH ecofira

EGEC'23 will be running in tandem with a major complementary show that will enrich visitors' experience of the event.

EGEC'23 will be taking place at the same time as ECOFIRA.

What is ECOFIRA? Ecofira is the International Fair for Environmental Solutions, which brings together every aspect of environmental management from collecting, transporting and treating waste to recovering and recycling waste and waste elimination systems. This is a fair that offers significant added value and has been taking place since 2011.

SPONSORS

EGEC'23 offers a multitude of sponsorship opportunities that are sure to cater to the interests, expectations and budget of any organisation.

Sponsoring EGEN'23 offers great added value, including:

- ▶ High brand visibility and exposure.
- ▶ Improved brand positioning.
- ▶ Direct participation in the congress.
- ▶ Participation in parallel events.
- ▶ Etc.

To find out the full range of sponsorship options, contact us.
